Mr. Chevalier:

We are requesting an estimate of time necessary for production in accordance with LA RS 44:35. As you are fully aware these requests have been pending with your office since December 12, 2022. It seems unreasonable that no records have been produced in response to any of the requests we have submitted last year. We understand that one of the request required you to review further for redacting information involving juvenile subjects, but there are still two other requests which you have not provided any responsive documents for. We would like to get this request resolved as soon as possible. Please let me know when we can expect the records to be made available to us. Thanks in advance.
